# THE AFTER-ACTION REPORT

## GAIN DEEPER INSIGHTS ON TEAM PERFORMANCE

Our After Action Report is your roadmap to unlocking hidden potential within your team. As you engage in thrilling puzzle-solving challenges, our innovative after-action report quietly gathers data, providing you with a glimpse into your team's strengths and areas for growth.

When your team-building activity is completed, you have the option to have one of our Master Puzzlemasters sit down with company stakeholders and share our analysis of your team by teaching you how to read the data your team just created.

Our After Action Report can identify the company culture, how management is perceived, who are superstars in the making, and (occasionally!) if you have a bad apple. This proprietary system was developed with the help of psychologists and members of MENSA, and is often the favorite part of a team-building activity (especially a Puzzle Relay)!

Identify your top performers, nurture leadership potential, and foster a culture of collaboration as you decode the secrets hidden within your team's performance.
